## Our Flagship Inspection Application!

**Professional (or as we like to call it, POSM Pro) offers all our advanced features with the intuitive interface we're known for.** POSM Pro will bring more power, stability, and accuracy to your mainline, lateral, and manhole inspections.

Here are just a few of the reasons 90% of all POSM customers go with POSM Pro:

- Pro comes fully loaded with all available inspection features and modules. No guess work, no surprises.
- Pro is compatible with v7 NASSCO Templates.
- Pro gives you complete control, with customizable on-screen overlays, reports, templates, and more.
- Pro includes a single license of POSM Office for entry-level storage, editing, reporting, importing, and exporting. (As your need for storage grows, you can upgrade for increased storage options, such as POSM Storage or Server, quickly and easily.) POSM Pro grows as you grow!

Pro features:

- Real-time interactive plotting with picture and clip support.
- The most reliable POSM option for all truck crawlers.
- Full integration with Rausch ScanCam pipe profiling and lateral launching.
- Works on a rack-mount, notebook, or Windows tablet.
- Supports computer generated text-to-speech, eliminating the need for manual microphone recording.
- Compatible with most Closed-Circuit TV systems.
- Available in English, Spanish, Portuguese, and Chinese.
